# Comments Report

## 1. Background Questions

1.7) Considering your selections above, please comment on your experience in this course.

- I enjoyed this class, the structure, and Dr. Oxley overall.
- I had a great experience in this course. I found it to be pretty simple. I liked the course structure with 3 exams and 3 papers. There was extra credit opportunities which was greatly appreciated. It is evident that Dr. Oxley rewards participation which I liked that aspect as well. I was able to learn and excel in the class
- I had a great time in Dr. Oxley's Micro class. I learned a lot and he was always willing to help.
- I had a very good experience in this course. I enjoyed Dr. Oxley's teaching style and the course layout.
- I have really enjoyed this class. Everything is laid out really well so we know what we will be covering throughout the semester. All homework is given a fair amount of time to complete which is very helpful in reducing stress.
- I loved this course! I'm not a big economics person and am only doing it because my mom wants me to, but Dr. Oxley made it fun. He was super accommodating and willing to help me at any point in time, and I was really sick for a lot of the semester and he sent me zoom recordings of the lectures, which was so helpful and I really really appreciated.
- I really enjoyed this course. I think Professor Oxley is an amazing teacher. I am so glad I had him for this semester. His kindness and understanding radiates throughout the campus.
- I took this class as an elective because I am a biology major and I wanted to learn more about economics. I really liked the topics we learned in class and I can use the knowledge I have learned in my daily life and in the future. The workload was not bad and was very manageable with my other STEM classes, which was nice for me. The instructor always tried to keep the discussion light-hearted, encouraged questions, and explained topics well.
- I took this for my Social/Behavior studies pathway. It was a little more difficult than I expected, but I also did not put in much effort.
- I very much enjoyed the course. even though i did not put as much effort as i think i should have, Dr. Oxley was very supportive in late credit work.
- It was a good experience overall. I enjoyed the lectures but I had a hard time at the beginning of the semester, once I started getting up to speed, everything went well.
- I've had a good experience in this course. The course was well outlined in the syllabus and if you followed it then you will be successful in the course. I wasn't always organized with the work and the no late policy hurt me at times, but it's ultimately my fault.
- My experience in this class was good. The Micro Eco class done by Professor Oxley was great. He taught the class well and gave students an appropriate time to do work with leniency in turning it in.
- My experience in this course is positive. I felt engage and I like how he presented the materials to the class.
- Overall, Dr. Oxley is a great professor that engages his students and teaches them the curriculum in a timely manner. Great at responding to emails if it is a weekday and loves what he does. Sometimes he can get off task, however, I find it fun when we explore topics beyond the scope of the class.
- Pretty easy course he does a really good job explaining
- The course is very lecture heavy, but there is still a fair amount of interaction.
- The course was awesome! The professor thoroughly explained the content, the class and professor had a good sense of humor, and the online textbook provided and the professor were both excellent resources.
- This class was incredibly well set up, the teacher is organized and teaches the information in a way that logically makes sense. The test at the end of each unit accurately tests for material covered in class, and there are plenty of opportunities to ask for help from the teacher if needed. The lectures in class were interesting
- This course had the accurate content I expected there to be. I had an easy time studying and preparing for exams. The homework and assignments are weekly, so I feel like that prepared me a lot better. Overall, this was a good course and I learned a lot.
- This course has been very good in terms of helping me understand microeconomics. While challenging, I felt that the grading and workload was fair. Dr. Oxley also had a plethora of availability in terms of office hours.
- Very helpful and was very flexible

## 2. ECONOMICS DEPARTMENT STUDENT COURSE EVALUATION

2.4) Please comment on your answers to questions 2.1, 2.2, and 2.3.

- Always answered emails with quickness
- Always gives feedback and reminds us of office hours
- Dr Oxley was a fair teacher that gave good criticism on assignments. He was available for office hours, but there was a stretch in which we didn't have class for awhile which I think hurt me and my preparation.
- Dr. Oxley always grades in a reasonable amount of time. Not to mention he is open to discussion, and always has a good reason as to why something is incorrect. He always answered emails, and regular office hours.
- Dr. Oxley follows a pretty standard organization to the class. His slides correspond with the textbook and we do a textbook chapter a week. This structure worked really well for me. I was able to do the homework well ahead of time. His evaluations within my papers have been helpful as well. With a topic like economics you're either right or wrong and Dr Oxley does a good job of explaining why and how we reach the right conclusions. He is extremely helpful outside of class. His office hours are very accessible and he is very responsive with his emails.
- Dr. Oxley is always prepared and always knows what to bring to class, whether it be some outside notes or articles to read, he always ties everything to the main lecture. He is very accessible outside of class. As a matter fact, on the first day of class he took the entire class to go visit his office so we would know where to reach him during office hours. He encourages us to go and ask for help and always answers questions leaving you with no doubts.
- Dr. Oxley provided slides before each class and is available and helpful during office hours.
- Dr. Oxley was almost always energetic and ready to teach and came prepared with lessons and notes. He made himself available outside of class often and gave fair and useful feedback on turned in assignments.
- Dr. Oxley was always willing to help me
- Grading and feedback were very good. And as I said earlier Dr. Oxley was very helpful when I visited him in office hours.
- He is good at responding with good feedback and is a fair grader
- He was well prepared and organized during the lectures. Even outside of class he is easy to approach and talk to if there are any issues that you encounter
- I am happy with the way Dr. Oxley always gives feedback when you ask for it and how he is always reachable to help
- Lectures are super organized. Papers are really fairly graded strictly based on rubric. Dr. Oxley had super convenient office hours and was always willing to help
- The course was well organized. Professor did a good job of sticking to timeline and syllabus which made it easy to manage workload. He held office hours and was timely in responding to emails. He provided good feedback on assignments and ensured students had a chance to correct and clarify the material on assignments.
- The instructor has lots of office hours and is more than willing to go over anything you missed. He always asks for questions at the beginnings and ends of lectures, which is very helpful.
- The instructor seemed to know what he was doing and was very knowledgeable in his field. He went over the written/problem portions of the exam in class which was very helpful.
- The professor was well organized and kept the students well informed. They had readily available office hours.
- The slide presentations were on t-learn well in advance before classes started. My tests were graded with care and effort and whenever I tried to meet with him he was always available.
- The workload for this class is manageable, but for me at least the course content itself is fairly difficult. Dr Oxley is easy to contact/find and responds to emails quickly
- When I have gone to office hours for help, I get my questions answered in the simplest form which allows me to be able to take that knowledge and apply it to other broad scale questions on the same topic.

2.7) Please comment on your answers to questions 2.5 and 2.6.

- Dr Oxley always provided real world examples of topics discussed which allowed students to apply what we were learning to scenarios we observe in everyday life. I feel my perspective on economics and its application in the real world was broadened.
- He always was fun about discussion. Then he really showed how this course relates to everyday life. He always answered questions as well that made it easier to understand the content.

- I have had to study a good amount for his tests and the homework's have taken me a long time. With that being said I feel in doing this that I am getting the most out of this course by studying and doing the homework's even though they take a lot of time.
- I have learned a lot more about Econ which I have enjoyed.
- I learned a lot in the course but I feel like there are certain concepts that I didn't fully understand or used after learning about them
- I learned a lot through Econ. It was a complete new topic for me and Dr. Oxley did a good job and making it interesting. His passion for the course is contagious.
- I think that the real world assignments help with my understand of Econ and how it is seen in the real world. It helped me think and apply about what we are learning in the class
- I think that this course did a great job in terms of helping me learn about Micro economics. Multiple choice/ free response hw with immediate feedback where very helpful.
- I thought i leaned a good amount in this course and it made me think as well.
- I've learned a lot more about economics than I expected to.
- Learning so much, and challenging me to think about the world differently
- Most of the basics of this course stem from highschool economics class, but this course does go much more in depth that any sort of Highschool class would.
- Not much to say I agree with both statements
- The content of the course readily applies to the real world and does an excellent job in enabling the students to see this and apply it to how they approach things.
- The course does stimulate analytical thinking, however, I did not spend enough time studying to learn a great deal from this course.
- The course had a lot of content and if you take a lot of notes in the class and read the book then there's a lot to learn.
- The most challenging part of the course was either some of the homework problems or the Economics in the Real World assignment.
- There's a lot of new ideas about economics that I learned
- This course is almost entirely analytical thinking and the setup of the class complemented this really well. I wouldn't say I learned a great deal in the course only because my base knowledge of economics was already on par with what was needed for the course. This was at no fault to Dr. Oxley and his teaching.
- Three of his assignments are to write economics papers based on what we are learning in lectures and that always help put into perspective what we are learning into the real world.

2.10) Please comment on your answers to questions 2.8 and 2.9.

- As an engineering major, I don't care for this course. However, if I were a business/econ major, Im sure this class would be an awesome start for me
- As stated before I enjoyed the class and the structure. Some of the best classes when we would get away from the slides and talk about real world situation or problems. Dr. Oxley is a great professor.
- Classes where very informative and there was not a minute wasted.
- Dr. Oxley is an amazing professor with a very strong way of teaching. The outside resources like the online textbook and homework are also extremely helpful. He always offers practice tests that are just like the exams so you know what to expect on the test.
- Dr. Oxley is very effective at his job. My only critique would be course timing, sometime we had to rush through slides a little bit but they are posted and accessible so it was never an issues. A really great class and professor that I have already begun recommending to others.
- I like the way Dr Oxley teaches, he makes the course more engaging than it would be normally.
- I really believe he is an outstanding professor. I was very insecure coming into this class because of previous history of difficulty in economics. However, this semester I might even end up with an A because of the amazing Professor. If I take anymore economics courses, I will be taking it with this professor.
- I think it is a good course, the only thing I think could be improved is that the pace at which the learning is provided is too fast and sometimes learning new concepts requires more time
- I would give Oxley an A+

- It's a good course and Dr. Oxley did a lot to keep it interesting. He was helpful outside of the class and the class discussions were usually good.
- Overall, great class, I learned a lot about the world that we live in and Dr. Oxley was a class teacher.
- Super great teacher. 10/10 recommend. Thanks so much Dr. Oxley for a great semester!
- The professor does a good job at explaining the material
- The professor engaged the class with humor while going through the content of the course in a timely manner. All questions were thoroughly answered and even explored with extensive examples.
- Very nice and very helpful and a fair professor with grades and extra credit
- Whenever I was slightly confused with the content, a quick question for Dr. Oxley cleared things up immediately. He does a very good job teaching economics and has a clear passion for the job that infects the students as well.
- While sometimes his voice could be monotone, he was very effective in expressing the material and why it was important in economics. I really enjoyed the course and having Oxley as a professor.
