Profile

Subunit: Economics

Name of the instructor:

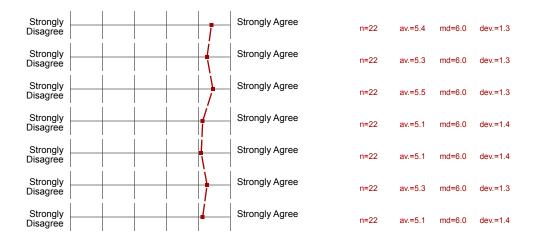

Jonathan Oxley

Name of the course: Principles of Macroeconomics (ECON-1312-1-FL21) (Name of the survey)

Values used in the profile line: Mean

2. ECONOMICS DEPARTMENT STUDENT COURSE EVALUATION

- ^{2.1)} The instructor is well prepared and organized.
- 2.2) The evaluation of my work (exams, papers, projects and etc.) is fair and constructive.
- 2.3) The instructor is accessible and helpful outside class
- ^{2.5)} The course stimulates analytical thinking.
- ^{2.6)} I am learning a great deal in this course.
- ^{2.8)} Overall, I would give this course a positive rating.
- ^{2.9)} Overall, the instructor is an effective teacher.

Comments Report

1. Background Questions

- 1.7) Considering your selections above, please comment on your experience in this course.
- Great experience, have enjoyed the class.
- I chose this course as a requirement and was going to take the class with Dr. Salvucci who I also took microeconomics. Dr. Oxley has done an amazing job to succeed Dr. Salvucci
- I had a good experience in this course overall
- I have learned a lot in this class. Not only did I learn about the concepts behind macro economics I also learned plenty about real life applications and examples
- I liked this course and it is the reason why I have decided to minor in economics. Sometimes the lectures were hard to follow but besides that it was a good class.
- I took this class for my major mostly and to learn more about economics so I can apply concepts in my business endeavors outside of school.
- It was good
- I've really enjoyed this class. I have felt well prepared for each exam through in class discussions lead by Dr. Oxley.
- My experience in the course has been good so far. I learned more about macroeconomics than I had learned in high school. Furthermore, it has been helpful for my other classes that need a background of other business content and economic theory.
- My experience in this course was good, it was hard but i learned a lot
- Professor is very prepared at beginning of each class. Always has slides ready and knows what he is teaching.
- The course is very well organized and the content of the tests are clearly outlined within the lectures. The homework is difficult but the format of the homework provides opportunity to learn from previous mistakes.
- This class has been a very positive experience for me. The content is interesting and taught well. Though I signed up because it was required for my major I am still interested in the subject and have enjoyed the learning experience
- This class is required for my major.
- This course was a very welcome easier course. When I did badly, it was because I didn't put in enough effort. The instructor was very helpful and willing to do a lot to help us succeed in the course.
- This course was interesting and informative. Overall I enjoyed my time in this course.
- Very Manageable workload and covers what I need to know.

2. ECONOMICS DEPARTMENT STUDENT COURSE EVALUATION

- ^{2.4)} Please comment on your answers to questions 2.1, 2.2, and 2.3.
- All good
- Always available to help
- Always prepared. Does not give the best feedback on papers. He could go into more detail on what he marked off.
- Dr. Oxley is so responsive as an instructor and is always ready to help
- Dr. Oxley is very knowledgeable and helpful when questions arise and provides clear, well thought out answers. He is always accessible outside of class and is very passionate about his job. It's difficult to find a professor as committed to the subject and teaching as Dr. Oxley.
- Dr. Oxley is very organized and I appreciate the routine of the class. He recognizes that his class is not the only one his students are taking, meaning he is very understanding and willing to meet his students where they are at.
- Exams were tough but he gave us make up points to help us learn the content and get points back

- Expectations for this class is clearly stated in the syllabus. Professor is prepared for class
- He was always thorough in his grading. I never felt like I got an unfair grade. He always had a plan for the day's lecture and was constantly reminding us of his office hours.
- I have been to office hours almost every week this semester to discuss concepts that I don't understand and the professor has been very available.
- I have received help from my professor whenever I would ask and Oxley teaches this course fairly well. He obviously wants to help his students as much as he can and he cares about our life outside of his class, making extensions on homework when he feels it is necessary. Furthermore, all of his feedback on papers and exams are helpful for future projects.
- Instructor does their job the right was and provides great information and feedback.
- Out of all of my professors, Dr. Oxley is the most willing to help and the best about getting back when I have questions.
- Professor Oxley is always prepared and is always helpful. He is also a very fair grader.
- Professor Oxley. Has well thought out lessons always prepared and has always been easy to reach outside of class when I want feedback on papers
- Professor always goes over problems before and after the test to make sure we understand the content.
- Professor grades fairly and is always available and understanding outside of class
- ^{2.7)} Please comment on your answers to questions 2.5 and 2.6.
- Econ in the real world assignments help connect what we learn to the real world and make us use thinking learned in class and apply it to real scenarios
- Good
- I feel I learned a lot about the economy in this course.
- I have learned a lot about economic concepts and I will continue to peruse economics because of it.
- I honestly struggle understanding many of the concepts but it is definitely stimulating and a good course to take.
- I'm able to read and understand economic articles and apply what I know to the real world.
- I'm learning new content that I need for my future major.
- I've learned a good amount
- The economics in the real world assignments stimulated critical thinking and forced us to see how concepts from class play out in the real world.
- The information is presented in a clear and concise manner that just about any student should be able to understand.
- This course has plenty of real life application and forces u to think in a different way
- This course requires your attention in class or the textbook. However, I had a background of this course in high school since I took the AP course, so I haven't learned too much more than I was taught in high school.
- This is a very analytical class that challenged me just enough. However, I did carry over a lot of information from microeconomics that helped me in this course.
- We go through power point slides everyday but he reads off of them and does not actually teach.
- ^{2.10)} Please comment on your answers to questions 2.8 and 2.9.
- Good teacher
- He is a good professor. Got better as the year went on and he got more comfortable
- He's funny, efficient, and knows his stuff. Sometimes he gets in little tangents, but it shows he's excited about what he's doing.
- I had a good experience in this class, and since I have to take it as a business major, I am glad I had Dr. Oxley as my professor.
- I would give this course an above average rating. The professor was very nice, available, and pretty good but sometimes he was hard to follow. That is why I would not necessarily consider him "effective".

- I'm learning as well as performing well in the class.
- My experiences were overall positive, and I believe professor Oxley is a good teacher.
- Only issues are occasionally moving/talking to fast, but gives good explanations and is very knowledgeable.
- Oxley has done a great job
- Professor is well prepared but can sometimes speak way too fast which makes it harder to understand certain things. Overall still learned plenty
- This class is great and I wouldn't want to take it with any other professor. It has provided engaging and thought provoking discussion. It has been fun and I have learned a great deal more than in previous classes. One area that Dr. Oxley could improve is by setting a pace during lectures so that students can better follow along. He does at times ask if any students need additional time to copy the lectures but most students either fill in their notes before or after class.
- This course is helpful and necessary to understand other business courses. Furthermore, Oxley teaches this course well and he is an effective teacher.
- This was a great course to take that fulfilled all my requirements. The instructor was very helpful and answered all my questions with ease.
- While I am not very good when it comes to economics, Dr. Oxley is a great professor hands down and I would recommend having him as a professor to everyone taking an economics course. Brayden
